Professional Summary

Computer Science Engineering graduate with hands-on experience in front-end and full-stack development through internships and apprenticeships. Proficient in Python, JavaScript, React.js, Tailwind CSS, Node.js, and MongoDB, with a strong foundation in building responsive, user-centric web applications. A fast learner and collaborative team player, eager to contribute to innovative projects and grow as a full-stack developer.

Relevant Experience

Full Stack Development Apprentice | SD Hub

June 2025 – Present

- Gained practical experience applying full-stack development principles, with a focus on the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Developed and deployed responsive web applications under mentorship.
- Collaborated with peers using Git/GitHub while adhering to Agile methodologies.

Front-End Developer Intern | Cognifyz Technologies (Remote)

April 2024 – May 2024

- Developed a responsive and interactive website using HTML, CSS, and JavaScript.
- Applied responsive design principles to ensure cross-device compatibility.
- Enhanced user engagement by implementing interactive elements and integrating external APIs for dynamic content.
- Designed and validated user-friendly web forms for data collection.
